Muneeb Ur Rehman

Telecommunication Engineer • Embedded Systems & Machine Learning

Pakistan | munibch786@gmail.com | LinkedIn | Website | GitHub

Professional Profile

Telecommunication engineer with **eight years of experience** taking radar, surveillance and security systems from design to operational handover in defence projects. Experienced in system design, hardware–software integration, testing and validation, network security and cybersecurity governance. Currently completing an **MS in Electrical Engineering (CGPA 3.76/4.00)** with a thesis on machine-learning anomaly detection for automotive embedded systems. Driven to keep growing at the meeting point of embedded systems, machine learning and security, and to take on challenging work where engineering experience and research can make systems safer and more reliable.

Signature Accomplishments

- **SIDS & MSTAR radar deployment:** Led the end-to-end deployment of a Surveillance and Identification System and a Man-portable Surveillance and Target Acquisition Radar for the Ministry of Defence, from system architecture and hardware–software integration to testing, performance validation and handover to end users.
- **Enterprise CCTV surveillance:** Planned and delivered campus-wide CCTV infrastructure, coordinating several departments through installation, network integration, component testing and handover to security operations.
- **Cybersecurity compliance framework:** Directed an organisation-wide security programme: policies aligned with national and international standards, risk assessments, access control, firewall and encryption controls, incident response procedures and staff awareness training.

Core Competencies

- Radar & Surveillance Systems
- RF & Antenna Design
- Wireless Networks
- Embedded Systems Validation
- Internet of Things (IoT)
- Machine Learning
- Anomaly Detection
- Network Security
- Firewall Configuration
- Routing Protocols
- Risk Assessment & Compliance
- Incident Response
- Python, C++, MATLAB
- Git, GitHub, GitLab, Docker
- Project Management

Professional Experience

Project Officer — Jan 2024 – Present

Defence Forces of Pakistan | Pakistan

- Led end-to-end deployment of the SIDS and MSTAR radar systems for the Ministry of Defence, including system design, hardware–software integration, testing and operational handover.
- Managed installation and integration of enterprise CCTV surveillance infrastructure across the campus.
- Directed implementation of the organisational cybersecurity framework, including security policies, compliance frameworks, risk assessments and incident response procedures.
- Coordinated with stakeholders on system specifications, performance validation and regulatory compliance.
- Supervised technical testing, quality assurance and documentation.

Research Engineer — Jan 2019 – Dec 2023

- Executed research projects in telecommunications and embedded systems.
- Supported delivery of SIDS radar, CCTV and cybersecurity implementations.
- Managed technical specifications, performance validation and quality assurance.
- Collaborated with senior engineers and stakeholders on system implementations and operational requirements.

Network Engineer — Jan 2018 – Dec 2018

Special Communication Organization | Pakistan

- Deployed video conferencing solutions and supported infrastructure deployment and testing.
- Provided technical support for PHP applications and telecommunications research projects.
- Contributed to technical documentation and data collection.

EDUCATION

Master of Science in Electrical Engineering Sep 2025 – Present

Foundation University, School of Science & Technology | Pakistan

- CGPA: **3.76** / **4.00**
- Thesis: *Machine Learning-Based Anomaly Detection in Automotive Embedded Systems* (in progress)
- Coursework: Machine Learning Applications, Embedded Systems and Validation, Advanced Computer Networks, Optimisation Techniques, Control Systems, Power and Renewable Energy Systems, Research Methodology

Bachelor of Science in Telecommunication Engineering Sep 2013 – Sep 2017

Military College of Signals, National University of Sciences and Technology (NUST) | Pakistan

- CGPA: 3.04 / 4.00
- Thesis: *Design of Multi-Band Antenna for WLAN/WiMAX and C-Band Applications*
- Coursework: RF & Antenna Design, Signal Processing, Wireless Communication, Embedded Systems, Network Security, Analog and Digital Communication

CERTIFICATIONS – ALL VERIFIABLE ONLINE

Machine Learning & AI

- **Machine Learning Specialization** Oct 2026
  DeepLearning.AI | Coursera | Specialization, 3 courses | Credential ID: 73UQ8LR88LAZ | Verify credential
- **Deep Learning Specialization**
  DeepLearning.AI | Coursera | Specialization
- **Applied Anomaly Detection with Machine Learning** Sep 2026

Embedded Systems, Networks & Security

- **Development of Secure Embedded Systems** Sep 2026
  28DIGITAL | Coursera | Specialization | Credential ID: 80H551WAS8GZ | Verify credential
- **An Introduction to Programming the Internet of Things (IoT) Specialization** Sep 2026
  University of California, Irvine | Coursera | Specialization, 6 courses | Credential ID: G2CPFWLD4L80 | Verify credential
- **Certified Information Systems Security Professional (CISSP)** Sep 2026
  Infosec | Coursera | Specialization, 8 courses | Credential ID: X7WCI4KR8DBO | Verify credential
- **Cisco CCNA (200-301)** Sep 2026
  Packt | Coursera | Specialization, 3 courses | Credential ID: GTTI9YH3U767 | Verify credential
- **Google Cybersecurity** Sep 2026
  Google | Coursera | Credential ID: GISOOQHQ2GYW | Verify credential
- **Cybersecurity Specialist (IBM & ISC2)**
  Coursera
- **Cyber Security & Ethical Hacking** Dec 2025
  Udemy | Credential ID: UC-2aef4f85-f839-498a-be6f-8ae1df1bc098 | Verify credential

Project Management

- **Google Project Management** Feb 2026
  Google | Coursera | Professional Certificate, 7 courses | Credential ID: 4GCSB5HDNVNU | Verify credential
- **IBM Project Manager** Feb 2026
  IBM | Coursera | Professional Certificate, 8 courses | Credential ID: RXEYSRLPS26A | Verify credential
- **Microsoft Project Management: Build Job-Ready Skills** Feb 2026
  Microsoft | Coursera | Professional Certificate, 9 courses | Credential ID: PS0FQR30HTI8 | Verify credential
- **Engineering Project Management Specialization** Feb 2026
  Rice University | Coursera | Specialization, 3 courses | Credential ID: RH1Q3XRLXM9T | Verify credential

- **Project Management Specialization** Mar 2026
  University of California, Irvine | Coursera | Specialization, 4 courses | Credential ID: H4WTRFNYYSEU | Verify credential
- **Project Management Specialization** Mar 2026
  University of Colorado Boulder | Coursera | Specialization, 3 courses | Credential ID: LO5GF5FL5U25 | Verify credential
- **Certified Associate in Project Management (CAPM)** Feb 2026
  Packt | Coursera | Specialization
- **PMP Seminar (35 contact hours / PDUs)** Apr 2026
  Udemy | Verify credential

Other

- **Renewable Energy Specialization** Sep 2026
  University of Colorado Boulder | Coursera | Specialization | Credential ID: 9TOX0R1WCWMG | Verify credential
- **Python for Everybody**
  University of Michigan | Coursera
- **Geographic Information System and Remote Sensing**
  Work-based training
- **MATLAB and IELTS Academic Preparation**
  Campus-based

Languages

- **Urdu** – Native
- **English** – IELTS Academic, overall band **6.5** (Aug 2026) | CEFR: Listening B2, Reading B2, Spoken Interaction C1, Spoken Production C1, Writing B2
- **German** – Language course, National University of Modern Languages (NUML), Sep – Oct 2026

Hobbies & Interests

- **Fitness & Sports:** Regular gym training, swimming and tennis, building discipline and endurance.
- **Outdoors & Travel:** Hiking and travelling to explore new places and cultures.
